

“Maryland Transit Solutions is excited to get to work,” said MTS Project Director Terry Gohde. “We’re looking forward to meeting with residents and businesses to share our plans as we prepare for construction mobilization.”

The Purple Line project has committed to maintaining open dialogue with the communities surrounding the alignment with the objective of building a long-term relationship and working with community stakeholders to minimize impacts during construction through completion of the project.

“Our Community Advisory Team members are vital to the success of this project, because they know their neighborhoods so well,” said MDOT MTA Purple Line Executive Director Matt Pollack. “It will be great to meet with the public in person again.”

The CATs are member-driven teams with representatives appointed from neighborhood and civic associations, as well as business associations and local governments. Dates and times of the meetings will be announced next month:

**Bethesda/Chevy Chase**

Connie Morella Library

Riverdale, MD 20737

MDOT MTA is one of the largest multi-modal transit systems in the United States. The Purple Line is a 16.2 mile light rail line that will extend from Bethesda in Montgomery County to New Carrollton in Prince George's County. It will provide a direct connection to the Metrorail Red, Green and Orange Lines at Bethesda, Silver Spring, College Park, and New Carrollton. The Purple Line will also connect to MARC, Amtrak, and local bus services.
