Preface	P-1	1.3.5. Transit System Efficiency and Connectivity	1-11
Planning Context	P-1	1.4. Project Goals and Objectives	1-12
Planning and Project Development Process	P-1	1.4.1. Improve Mobility and Accessibility	1-12
Washington Metropolitan Area Transportation Plan	P-1	1.4.2. Enhance Environmental Quality	1-13
Prior Studies of the Corridor	P-1	1.4.3. Support Local Plans for Economic and Community Development	1-14
Purpose of the AA/DEIS	P-1	1.4.4. Optimize Public Investment.....	1-14
Decision At Hand.....	P-1	1.4.5. Long-Term Attainment of Regional Clean Air Goals	1-15
How the AA/DEIS Supports Decision Making.....	P-1	1.5. Public Involvement and Agency Coordination.....	1-16
Selection of the LPA	P-2	1.5.1. Public Meetings	1-16
Next Steps	P-2	1.5.2. Additional Outreach.....	1-18
Organization of this AA/DEIS.....	P-2	1.5.3. Agency Coordination.....	1-18
AA/DEIS Document.....	P-2	1.5.4. Project Team Meetings	1-19
Executive Summary	ES-1	1.6. Evaluation of Alternatives	1-19
Purpose of this Alternatives Analysis/ Draft Environmental Impact Statement	ES-1	1.6.1. Measures	1-19
Purpose and Need for the Purple Line.....	ES-1	Chapter 2. Alternatives Considered.....	2-1
Summary of Alternatives	ES-2	2.1. Alternatives Development Process	2-1
Impacts and Mitigation	ES-3	2.2. Modes.....	2-1
Comparison of Benefits and Costs	ES-6	2.3. Alignments	2-3
Attainment of Goals and Objectives.....	ES-6	2.4. Alternatives Retained for Detailed Study	2-6
Effectiveness.....	ES-6	2.4.1. Alternative 1 – No Build Alternative.....	2-6
Cost-Effectiveness	ES-11	2.4.2. Alternative 2 – TSM Alternative	2-7
Financial Feasibility.....	ES-12	2.4.3. Build Alternatives	2-9
Equity.....	ES-12	2.4.4. Alternative 3 – Low Investment BRT.....	2-14
Trade Offs.....	ES-12	2.4.5. Alternative 4 – Medium Investment BRT	2-16
Where we are in the planning process	ES-13	2.4.6. Alternative 5 – High Investment BRT	2-20
Next Steps.....	ES-13	2.4.7. Alternative 6 – Low Investment LRT.....	2-22
Chapter 1. Purpose and Need	1-1	2.4.8. Alternative 7 – Medium Investment LRT.....	2-24
1.1. Project History	1-2	2.4.9. Alternative 8 – High Investment LRT	2-26
1.2. Corridor Setting	1-3	2.4.10. Design Options	2-28
1.2.1. Existing Land Use	1-3	2.4.11. Stations and Station Facilities.....	2-28
1.2.2. Existing Transit Service	1-5	2.4.12. Ongoing Planning	2-28
1.2.3. Transit Service Markets.....	1-7	2.5. Service Concept	2-30
1.3. Need for Transportation Improvements.....	1-8	2.6. Service Characteristics.....	2-30
1.3.1. Changing Travel Patterns	1-10	2.6.1. Headways.....	2-30
1.3.2. Access for Transit-Reliant Populations	1-11	2.6.2. Fares.....	2-30
1.3.3. Population and Employment Growth	1-11	2.6.3. Hours of Service	2-31
1.3.4. Traffic Conditions	1-11	2.6.4. Feeder Bus Service	2-31
		2.6.5. Operating Characteristics.....	2-31
		2.6.6. Ancillary Facilities.....	2-31

Table of Contents

Chapter 3. Transportation and Traffic	3-1	4.3.3. Effects on Minority and Low Income Populations	4-13
3.1. Public Transportation.....	3-1	4.4. Parks, Recreational Areas and Open Space	4-14
3.1.1. No Build Alternative	3-1	4.4.1. Existing Parklands and Recreational Areas	4-14
3.1.2. TSM Alternative.....	3-2	4.4.2. Potential Impacts and Benefits.....	4-14
3.1.3. Build Alternatives.....	3-3	4.4.3. Consultation and Coordination	4-24
3.2. Highways and Roadways.....	3-8	4.5. Cultural Resources	4-25
3.2.1. Regional Effects on Travel and Congestion	3-8	4.5.1. Section 106 of the National Historic Preservation Act of 1966 (NHPA)	4-25
3.2.2. Corridor Impacts of Alternatives and Operations.....	3-10	4.5.2. Survey Methodology.....	4-25
3.2.3. Impacts to Intersection Operations	3-14	4.5.3. Survey Results for Historic Standing Structures.....	4-26
3.2.4. On-Street Parking Impacts	3-17	4.5.4. Survey Results for Archaeological Resources	4-26
3.3. Pedestrian and Bicycle Access.....	3-17	4.5.5. Parklands.....	4-36
3.4. Deliveries	3-18	4.5.6. Indirect and Cumulative Effects	4-37
3.5. Emergency Vehicles	3-18	4.5.7. Conclusion	4-37
3.6. Construction Impacts	3-19	4.6. Visual Quality	4-37
Chapter 4. Environmental Resources, Impacts, and Mitigation	4-1	4.6.1. Existing Visual Quality.....	4-37
4.1. Land Use and Economic Activity	4-1	4.6.2. Potential Effects	4-41
4.1.1. Socioeconomic Characteristics.....	4-1	4.6.3. Conclusions.....	4-42
4.1.2. Land Use.....	4-2	4.7. Air Quality	4-42
4.1.3. Economy.....	4-3	4.7.1. Affected Environment.....	4-42
4.2. Communities	4-4	4.7.2. Environmental Consequences	4-44
4.2.1. Bethesda	4-4	4.7.3. Conclusions.....	4-48
4.2.2. Chevy Chase.....	4-6	4.8. Noise and Vibration	4-48
4.2.3. Rock Creek Forest/Lyttonsville/ Rosemary Hills.....	4-6	4.8.1. Noise Assessment Criteria	4-48
4.2.4. Woodside.....	4-7	4.8.2. Existing Conditions.....	4-49
4.2.5. Silver Spring.....	4-7	4.8.3. Environmental Consequences	4-54
4.2.6. East Silver Spring.....	4-8	4.8.4. Mitigation Measures for Noise Associated with Line Operation, Maintenance and Storage Facilities and Construction.....	4-56
4.2.7. Long Branch.....	4-8	4.9. Habitat and Wildlife.....	4-57
4.2.8. Takoma Park.....	4-8	4.9.1. Significant Trees	4-62
4.2.9. Langley Park.....	4-8	4.9.2. Terrestrial Wildlife	4-62
4.2.10. Lewisdale.....	4-9	4.9.3. Aquatic Biota and Habitat.....	4-62
4.2.11. Adelphi	4-9	4.9.4. Rare Threatened and Endangered Species	4-67
4.2.12. College Park	4-9	4.10. Water Resources	4-67
4.2.13. Riverdale	4-9	4.10.1. Groundwater and Hydrogeology.....	4-67
4.2.14. Glenridge/Beacon Heights.....	4-10	4.10.2. Surface Water Resources/Water Quality	4-67
4.2.15. New Carrollton	4-10	4.10.3. Scenic and Wild Rivers.....	4-68
4.2.16. West Lanham Hills	4-10	4.10.4. Floodplains.....	4-68
4.3. Environmental Justice.....	4-10	4.10.5. Waters of the United States, including Wetlands	4-69
4.3.1. Methodology.....	4-11	4.11. Topography, Geology, and Soils	4-74
4.3.2. Supplemental Data.....	4-11	4.11.1. Topography.....	4-74

Table of Contents

4.11.2. Geology	4-74	5.2.2. Operating and Maintenance Cost Assumptions	5-3
4.11.3. Soils	4-81	5.2.3. Operating and Maintenance Cost Estimates	5-3
4.12. Hazardous Materials: Initial Site Assessment.....	4-82	5.2.4. Farebox Revenues.....	5-4
4.12.1. ISA Methodology	4-82	5.2.5. Operating Subsidy.....	5-4
4.12.2. Site Ranking	4-82	5.2.6. Financial Strategy	5-4
4.12.3. Summary of Impacts to Hazardous Material Sites	4-82	5.2.7. Transit Funding In Maryland.....	5-4
4.13. Safety and Security	4-83	5.2.8. Montgomery County Funding	5-5
4.13.1. Existing Safety Conditions	4-84	5.2.9. Prince George’s County Funding.....	5-6
4.13.2. Potential Impacts to Safety and Security	4-84	5.2.10. Potential Private-Sector Funding	5-6
4.13.3. Safety and Security Conclusion.....	4-85	5.2.11. Federal Aid	5-6
4.14. Utilities.....	4-86	5.2.12. Capital Funding Strategy	5-7
4.15. Energy Analysis	4-86	5.2.13. Operating and Maintenance Cost Funding Strategy	5-8
4.15.1. Affected Environment	4-86	5.3. Cost and Funding Conclusions	5-8
4.15.2. Environmental Consequences	4-86	Chapter 6. Evaluation of Alternatives	6-1
4.16. Irreversible and Irretrievable Commitment of Resources.....	4-88	6.1. Approach.....	6-1
4.17. Construction Impacts	4-89	6.1.1. Federal New Starts Criteria Considerations.....	6-1
4.17.1. Air Quality.....	4-89	6.2. Attainment of Goals and Objectives	6-1
4.17.2. Noise and Vibration.....	4-89	6.3. Effectiveness	6-5
4.17.3. Water Quality, Wetlands and Floodplains.....	4-89	6.3.1. Increase Mobility and Improve Accessibility	6-5
4.17.4. Contaminated Soils and Hazardous Materials.....	4-90	6.3.2. Improve Transit Operating Efficiencies.....	6-6
4.17.5. Maintenance of Traffic	4-90	6.3.3. Enhance Environmental Quality	6-6
4.17.6. Utilities	4-90	6.3.4. Optimize Public Investment.....	6-6
4.17.7. Construction of LRT in Street Lanes.....	4-90	6.3.5. Support Local Plans for Economic and Community Development.....	6-7
4.17.8. Construction Impacts and Mitigation for Various Types of Transit Operation.....	4-90	6.3.6. Contribute to Attainment of Regional Air Quality Goals	6-7
4.17.9. Construction of Maintenance and Storage Facilities	4-91	6.4. Cost Effectiveness.....	6-7
4.18. Indirect and Cumulative Effects Analysis	4-92	6.5. Financial Feasibility	6-8
4.18.1. ICE Scoping	4-92	6.6. Equity	6-9
4.18.2. ICE Analysis Findings.....	4-92	6.6.1. Service Equity.....	6-9
Chapter 5. Costs and Funding.....	5-1	6.6.2. Financial Equity	6-9
5.1. Capital Costs	5-1	6.6.3. Environmental Equity	6-9
5.1.1. Approach	5-1	6.7. Trade Offs	6-10
5.1.2. Contingency.....	5-1	Glossary and Acronyms	
5.1.3. Professional Services.....	5-1	References	
5.1.4. Capital Costs Assumptions.....	5-1	List of Recipients	
5.1.5. Capital Cost Estimates.....	5-2	List of Preparers	
5.2. Operating and Maintenance Costs	5-2		
5.2.1. Approach	5-2		

List of Tables

Summary of Key Evaluation Measures for Alternatives	8	Table 3-11: Year 2030 Build Alternatives Daily Boardings	3-6
Table 1-1: Existing East-West Bus Service.....	1-6	Table 3-12: Year 2030 Daily Transportation System User Benefits by Alternative.....	3-7
Table 1-2: Daily Transit Trips, Origins, and Destinations by District, 2000	1-9	Table 3-15: Year 2030 Regional Travel Impacts	3-8
Table 1-3: Existing Employment at Major Centers.....	1-10	Table 3-13: Year 2030 Daily Transportation System User Benefits with Mode Specific Attributes.....	3-8
Table 1-4: Percent of Households without a Vehicle.....	1-11	Table 3-14: Annual Change in Systemwide Farebox Revenues by Alternative Relative to 2030 No Build.....	3-8
Table 1-5: Household and Employment Forecasts.....	1-11	Table 3-16: Year 2030 Reduction in Automobile Trips by District Compared to No Build.....	3-9
Table 1-6: Traffic Levels, 2005 and 2030.....	1-12	Table 3-17: AM Peak Hour Intersection Levels of Service	3-15
Table 1-7: Current Scheduled Transit Travel Times for Segments.....	1-12	Table 3-18: PM Peak Hour Intersection Levels of Service.....	3-16
Table 1-8: Project Goals and Objectives	1-13	Table 4.1-1: Business Property Displacements	4-3
Table 1-9: Objectives and Corresponding Evaluation Measures	1-20	Table 4.4-1: Potential Direct Use of Public Parklands and Recreational Areas	4-19
Table 2-1: Existing East-West Transit Service	2-7	Table 4.4-2: Summary of Coordination Activities	4-24
Table 2-2: TSM Bus Headways	2-9	Table 4.5-1: Properties More than Fifty Years Old.....	4-27
Table 2-3: Summary of BRT Alternatives	2-10	Table 4.5-2: Archeological Sites within the APE	4-35
Table 2-4: Summary of LRT Alternatives.....	2-12	Table 4.5-3: Areas of Archaeological Potential Identified in Cultural Resource Reconnaissance Survey.....	4-35
Table 2-4: Summary of LRT Alternatives (Continued).....	2-13	Table 4.7-1: National Ambient Air Quality Standards.....	4-43
Table 2-4: Summary of LRT Alternatives (Continued).....	2-13	Table 4.7-2: Attainment Classifications and Definitions	4-43
Table 2-5: Proposed Stations, Markets, and Connecting Transit Services.....	2-29	Table 4.7-3: CO Microscale Analysis Locations	4-46
Table 2-6: Metrobus Fares (2007).....	2-30	Table 4.7-4: Project Level Emission Burden Assessment.....	4-48
Table 2-7: TheBus Fares (2007).....	2-30	Table 4.7-5: CO ₂ Emission Burdens	4-48
Table 2-8: Ride On Fares (2007).....	2-30	Table 4.8-1: FTA Land Use Categories for Transit Noise	4-49
Table 2-9: Operating Characteristics of Alternatives.....	2-31	Table 4.8-2: FTA Land Use Categories for Ground-borne Vibration.....	4-49
Table 3-1: Existing Transit Service.....	3-1	Table 4.8-3: Noise Impacts Generated From Line Operations.....	4-55
Table 3-2: Bus Headways within the Corridor (minutes)	3-1	Table 4.8-4: Potential Areas of Wheel Squeal Noise Annoyance for Low Investment LRT	4-55
Table 3-3: TSM Bus Headways (minutes)	3-2	Table 4.8-5: Potential Areas of Wheel Squeal Noise Annoyance for Medium Investment LRT	4-55
Table 3-4: Span of Service	3-3	Table 4.8-6: Potential Areas of Wheel Squeal Noise Annoyance for High Investment LRT	4-56
Table 3-5: Year 2030 Build Alternatives Headways (minutes)	3-3	Table 4.10-1: Water Resources and Forest Impacts.....	4-69
Table 3-6: Year 2030 End-to-End Travel Times.....	3-4		
Table 3-7: Year 2030 Average Station-to-Station Travel Times (minutes).....	3-4		
Table 3-8: Year 2030 Total Daily Linked Transit Trips	3-5		
Table 3-9: Regional Transit Trips	3-5		
Table 3-10: Year 2030 Daily Purple Line Ridership.....	3-6		

List of Tables
