

# Connect the Dots

Introducing  
Tierra Terrapin!

New from

Hey artists!  
Follow the  
instructions  
below to draw  
Tierra Terrapin.

## INSTRUCTIONS:

Starting at dot number 1 (in the upper left corner), draw a line to dot number 2, then connect 2 to 3 and so on. Keep going until you get to dot number 146. That's it - you're done!

## TIPS:

Instead of drawing a straight line from dot to dot, try following the curve of the shape you are creating. Try using a pencil first, then trace over it with a black marker to avoid mistakes. When you are all done you can color Tierra Terrapin!
