

**You may be asking yourself,  
"What is a light rail train?"**

- A Light Rail is an electric rail train that is powered by overhead wires. Unlike most train tracks, light rail tracks are safe for people and pets to walk across because no power runs through the rails. The Purple Line light rail will travel quietly at posted speeds equal to traffic on the roadway.

**When will Purple Line construction begin?**

- Purple Line construction began in the summer of 2017. It will take nearly five years to build all 16 miles of the Purple Line.

**Well, hello again! Now that you've met my friends at Purple Planet and learned a little about the Purple Line, maybe you're ready for my trivia challenge?**
